What can I gain from this Internship Programme?

You will gain excellent exposure to different perspectives of litigation work in Singapore, of government litigation work, private litigation work and insights into judicial work. Various agencies and stakeholders involved in Singapore's litigation work will brief you and share their work experiences with you. You will not only have the opportunity to observe hearings of cases in the Courts, but also to discuss the cases with the prosecutors, lawyers and judges. You will also have an opportunity to have a fireside chat with Senior Officers from the Attorney-General's Chambers and be attached to a Senior Counsel in private practice. You will discover that litigation work in Singapore is dynamic, challenging, meaningful, and is vital in achieving justice according to the Rule of Law. This internship is an excellent opportunity and should not be missed!
